

Application for the research and development project

.....
Name, First name

.....
Matriculation number Seminar group

.....
Course of studies

Begin

End of the project

.....
Street, house no.

.....
Postcode

.....
Residence (home address)

.....
Residential address at the project location (if different from home address)

I request for the SS/WS admission to the research and development project

Topic of the research project:

I confirm that I have passed all required exams of my Master's degree course ([according to the regulations of the Master's degree program Industrial Management this means more than 70% of the compulsory modules and at least 50% of the optional compulsory modules of the 1st and 2nd semester](#)).

The statement of marks is enclosed.

The project supervisor confirms that the applicant named above can complete his research and development project in the above-mentioned course of studies at the research project. The contents of the project can be found in the module description. This is a compulsory internship within the framework of the course of study, whose duration ([20 weeks](#)) is stipulated in the study regulations. At the end of the project a certificate will be issued.
