How Much Time to Spend?

		Time
Semester	3cp	90h
Weeks in Semester	27 (14 WiSe+13 SoSe)	1,5h (lectures)
		1,8h= 108min (self study)
		3.3h (total)

0.3. A Minimal Software Infrastructure for the Course SKO

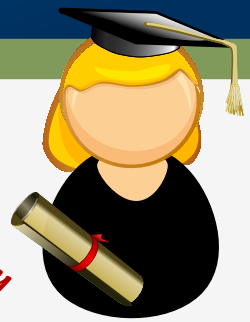

Git on Windows

- ▶ download git for windows according to the following web page
 - <https://git-scm.com/download/win>
- ▶ Install a modern package manager, e.g., <https://chocolatey.org/>

Mint Linux aside of Windows

- ▶ Website <https://www.linuxmint.com/download.php>
- ▶ Create a bootable USB stick <https://linuxmint-installation-guide.readthedocs.io/en/latest/burn.html>
- ▶ Boot from the USB stick <https://linuxmint-installation-guide.readthedocs.io/en/latest/boot.html>
 - The “live” instance can be used directly, and it will keep your computer clean
- ▶ But you also can do an installation <https://linuxmint-installation-guide.readthedocs.io/en/latest/install.html>
- ▶ see introductory video <https://www.youtube.com/watch?v=DDtMTVW1U4s>

*Key
Competencies*

0.4. What are the Documents in the Courses' Portfolio?

Seminararbeit/Portfolio of the Course (Obligatory Documents) in WiSE 24/25; SoSe25 to be announced.

20

Schlüsselkompetenzen (SKO)

Study diary (personal)

What did I learn?
What did I find with PMI?
Bullet points
Which open questions did I discover?

Study Blog (semi-public)

For your friends and relatives
Write it as if it was for the public
Major insights
What did I learn?
