INCLUSIVE DIGITAL: FORMING COMMUNITY IN AN OPEN WAY

SELF-DETERMINED PARTICIPATION IN THE DIGITAL TRANSFORMATION

The annual GeNeMe conference „Communities in New Media" discusses online communities from an integral perspective on several disciplines such as computer science, media technology, business and economics, education and information science, and social and communication science. As a forum for transdisciplinary dialogue, GeNeMe facilitates the exchange of experience and knowledge between participants from a wide range of disciplines, organizations and institutions with a focus on both research and practice.

GeNeMe 2023 opens up the discussion around issues of **inclusion and participation in the context of digital formats and innovations**. Among others the following questions, will be reflected upon: How can inclusion be implemented through digitalization and what are possibilities for doing so? How can participation in and through digitalization succeed? What are architectures and professional skills in the context of specific target groups?

The conference is led by a group of scientists from the faculties of Education and Economics, the Center for Open Digital Innovation and Participation (CODIP) of the TU Dresden as well as the DGUV University of Applied Sciences (HGU) and the HS Stralsund, with the kind support of Silicon Saxony e.V.

The 26th GeNeMe will take place in **hybrid** form with the focus on on-site participation and optional online participation. Supplemented by attractive online formats and at the pre-conference, we aim to create a virtual conference experience with the immersive TriCAT software, gather experiences and exchange ideas about and with visionary virtual environments that (should) enable participation in a wide variety of settings.

Papers submitted in English language may be presented in English language.

IMPORTANT DATES

01.05.2023 // abstract submission
29.05.2023 // notification about acceptance/ rejection of the abstracts
03.07.2023 // paper submission
14.08.2023 // notification about acceptance/ rejection of papers
21.08.2023 // submission of final contribution
28.08.2023 // end of early-bird discount
13.09.2023 // preconference-workshops
14.-15.09.2023 // GeNeMe conference

FEES (EARLY-BIRD)

main speaker, reviewers
95 €
additional speakers
on-site 95 € | online 50 €
regular participants
on-site 195 € | online 100 €
students (limited contingent)
25 €

Early-bird discount ends on 29.08.2023. Prices will increase by 25 €.

THE FOLLOWING TOPICS PROVIDE THEMATIC GUIDEANCE AND AN OPEN CALL FOR ABSTRACT SUBMISSION

DIGITAL LIFE & CITY
- citizen and open science
- digital sovereignty
- public participative processes
- accessible services and applications in the digital space
- sustainability and relisience

DIGITAL HEALTH & INCLUSION
- inclusion in a digital society
- designing and implementing accessibility
- health and participation through assistance systems
- (digital) healthcare literacy
- competence modeling for inclusive solutions

DIGITAL WORLD GLOBAL
- conflicts and alliances
- logistics networks
- Metaverse
- interculturalism
- physical and virtual mobility
- developing countries

DIGITAL BUSINESS
- diversity as a success factor
- co-creation and open innovation
- knowledge- and community management
- new work, mobile work
- digital governance and leadership
- digital strategy and platform economics

DIGITAL INTERACTION
- inclusive user experience, usability
- gamification and serious games
- playful leadership and playful organization
- hybrid and immersive experiences

DIGITAL EDUCATION
- diversity, inclusion, eduational justice
- personalized education, learning analytics
- openness (open data, AI, OER)
- digital literacy
- digital learning scenarios and communities

TWO-STAGE PROCESS

1 **abstract submission //**
3.000 characters excl. references and, if necessary, 2-3 meaningful illustrations

2 **preparation**
of accepted abstracts into one of the following formats

SUBMISSION FORMATS

RESEARCH PAPER // 18.000 CHARACTERS EXCL. REFERENCES
- IMRAD structure
- review based on the degree of innovation, methodology, potential for scientific debate

PROJECT CONTRIBUTION WORK IN PROGRESS // 9.000 CHARACTERS EXCL. REFERENCES
- Intermediate results, artifacts, project-specific reflections/evaluations
- review based on the degree of innovation, method driven reflexion, proof of concept

APPLICATIONS FROM PRACTICE // 4.500 CHARACTERS EXCL. REFERENCES
- products, concepts, etc. established or being tested in practice
- review based on the degree of innovation, reflection in terms of feasibility, practical relevance

As a junior-oriented conference, we especially invite **students** to submit contributions in one of these formats. We kindly ask you to mark your submitted contributions as student contributions for an appropriate review based on criteria that apply to university studies.

PUBLICATION AND INDEXING

All accepted papers will be published at TUDPress (with ISBN) and as an open-access publication at QUCOSA as well as in the Digital Library of GI. This applies to all submitted formats equally. Indexing is done via SCOPUS & QUCOSA.

All necessary information on templates, layout, and submission modalities can be found on the website **www.geneme.de**
